

It came to our attention that a Facebook group and a related website bearing the name and logo of Creditbank, identical to our registered corporate identity (name and logo), have been launched and put in use in Nigeria starting February 5, 2021 (Reference the shared images) apparently offering several banking services.

It is of utmost importance to highlight that the entity to which this Facebook group and website belongs to has no relation whatsoever with “Creditbank”, and is in no way linked nor affiliated, whether directly or indirectly, to Creditbank. Moreover, the use of our name and logo by said entity is in clear breach of Creditbank’s IP.

The objective of this statement is to clearly point the matter out and to completely dissociate between Creditbank and the aforementioned entity and dismiss any confusion between them.
